Note:

* For the 2016 Census, the reference period is the calendar year 2015 for all income variables.

** Dollar amounts have been inflated where necessary to 2015 constant dollars using the consumer price index (CPI).

1. **Low-income status** - The income situation of the statistical unit in relation to a specific low-income line in a reference year. Statistical units with income that is below the low-income line are considered to be in low income.

2. **Low-income measure, after tax (LIM-AT)** - The Low-income measure, after tax, refers to a fixed percentage (50%) of median-adjusted after-tax income of private households.

3. **Prevalence of low income** - The proportion or percentage of units whose income falls below a specified low-income line.
