Simcoe County Data Consortium

Welcome to the Simcoe County Data Consortium!

This is a space for you and your coworkers to share, collaborate and initiate discussion. The primary goal of this site is to bring everyone together and to ensure we are all available. This site is hosted and administered by the Simcoe County Data Consortium. For popular and commonly reference resources, please see the page.

Resources
Find, share and download resources directly from the web!
This is the primarily location for all the digital resources we wish to share.
For popular and commonly reference resources, please see the page.

[View All Resources]

Don't forget to check out the Simcoe County Data Consortium EXTRANET (<https://partner.simcoe.ca/sites/cdp/>)

The purpose of this platform is to provide a place for users to access Consortium resources and share information through a discussion board and events calendar.

Recently Added Discussion Items Include:

- Questions on data you would like access to
- Request for feedback on recently acquired data tables
- Request for feedback on the CYF Coalition Dashboard

Solutions Lab

Funded by the National Housing Strategy Solutions Labs, the Community Data Program (CDP) has teamed up with Canada Mortgage and Housing Corporation (CMHC) on a Solutions Lab.

The goal of this Solutions Lab is to help municipalities and community sector organizations find the

best way to measure and respond to local housing and housing-related issues through relevant data, visualization and reporting tools.

The project is expected to span November 2020- March 2022 and occur in stages. The project is currently in the discovery stage which involved a survey of stakeholders which

was e-mailed out to all consortium members. The purpose of the survey was to determine priority housing and related urbanization/ local development challenges, data gaps, and opportunity costs of missing data.

Input from a variety of organizations with diverse data needs will help ensure the

outcomes of the solutions lab meet the variety of data needs across the Country.

Future involvement for interested consortium members and external agencies may include e-mails and/or surveys to collect feedback, discussion items added to the Extranet and possibly focus group discussions.

To help municipalities and community sector organizations find the best way to measure and respond to local housing and housing-related issues.
