

Building an Age-Friendly **SIMCOE COUNTY**

BUSINESS/ORGANIZATION GUIDE & RECOGNITION PROGRAM

Ontario

June 2023

When many people hear
“senior” their first thoughts are:

FRAIL SLOW MOVING HARD OF HEARING RETIREE

We want to help change these preconceived ideas that impact the quality of service the moment older adults enter a business or organization to create a positive and welcoming experience for all!

The 2021 Census shows a greater number of adults 65+ than children under the age of 15. During the next 20 years, the Simcoe County population aged 65+ will have more than doubled.¹

According to new data from the Office of the Chief Actuary, the average life span for Canadians age 65+, is now 87 for men and 89 for women.² Coupled with the development of a rapidly growing older demographic, is the >>

19.9% of population in Simcoe County is 65+

Sources:

- ¹ Statistics Canada estimates 2016 and Ministry of Finance projections
- ² Office of the Chief Actuary (2014), Mortality Projections

<< trend that Canadians are also living longer and are increasingly reaching the age of 100. More than 9,500 centenarians are now living in Canada, which is a 16% increase from 2016. Centenarians represent 0.03% of the Canadian

population. Between 2016 and 2021, the number of people aged 85 and older grew by 12%, which is more than twice as high as the growth seen for the overall Canadian population (+5.2%). Similar trends are occurring in Simcoe County. In 2021, 105,920 persons aged 65 and older

were enumerated, representing respectively 19.9% of the total population.³ In comparison, for Canada, the proportion of seniors was 19.0 % in 2021.⁴ Refer to **Appendix A**, Senior Population by Simcoe County Census Division and its Municipalities and **Appendix B**, Simcoe County Map

Spending Power

Older adults are big consumers. As the population grows and ages, this demographic shift presents a major trend for investment. According to Margaret Neal et al⁵, Age-Friendly communities are “economic engines” that older adults will provide fuel. Older people far from being an economic drain, are actually an economic boom

and valued members of our community. In her report, Neal explains that older adults are consumers who may have more disposable income. Older adults often work or volunteer. Their contributions provide a boost to local work forces that is often needed. They help communities maximize resources by utilizing services at different hours of the day than office workers or young families, equalizing service flow for

businesses or organizations. Older adults are sophisticated customers who research products and services in which they are interested. Older people are usually loyal customers who know about the products they buy, are daily buyers, and expect personalized attention, thus generating a relationship of trust with the merchant. As with any other age group, older adults are a diverse consumer base with varied tastes, interests and preferences in products and services. >>

“People over 55 have the most money and buy the most products. Yet, the advertising industry is infatuated with the 18-to-34-year-old target market.”

Terry O’Reilly

This I Know: Marketing Lessons from Under the Influence

Sources:

- ³ Statistics Canada. 2023. Census in Brief: A Portrait of Canada's growing population aged 85 and older from the 2021 Census
- ⁴ Statistics Canada (2021) Census of Population
- ⁵ Neal, Margaret and DeLaTorre, Alan Kenneth, *The Case for Age-friendly Communities* (2016)

<< In the next 20 years, an aging population and people with disabilities will represent 40% of total income in Ontario—that's \$536 Billion. Improved accessibility in Ontario can help generate up to \$9.6 Billion in new retail spending and \$1.6 Billion in new tourism spending.⁶

People who have enjoyable experiences are more likely

to become loyal customers which can translate into repeat business. An Age-Friendly Business welcomes older consumers and works towards meeting the needs of this diverse, fast-growing and economically powerful consumer base.

For those organizations that are not for profit, it's about welcoming seniors.

Why an Age-Friendly Business/Organization Recognition Program?

In anticipation of the growing aging demographic, the County of Simcoe has developed a Positive Aging Strategy and Planning Framework. It describes how the County will work with individuals, families, municipalities, non-profit and private sectors, and communities to ensure Simcoe County is ready to meet the changing needs of a growing, aging population by becoming more Age-Friendly.

One of the action items included in the Planning Framework is to create an **Age-Friendly Business Guide and Recognition Program** and to raise awareness of the rapidly growing seniors' population and their potential needs.

An Age-Friendly community is one where all individuals can be full and meaningful participants

in their community. However, no community would be complete without the commercial and professional sectors. All business sector environments play vital roles in meeting the needs and demands of everyone—everything from food, clothing and shelter to personal care, home maintenance and many other services.

The **Age-Friendly Recognition Program** is intended to help you assess whether your environment

is set up to serve everyone. This Program provides tools and resources to help owners/operators to identify, promote and improve their Age-Friendly features.

The program wishes to acknowledge those who are working towards implementing Age-Friendly practices and who have demonstrated a willingness to continually maintain and improve by instituting and promoting best practices for serving individuals of all ages and abilities.

If you are already implementing age-friendly practices, or if you are making changes, we would like to hear about it. We are always looking to promote ways that businesses/organizations are becoming more Age-Friendly. See **Appendix C**, Examples of Age-Friendly Businesses/Organizations, **Appendix D**, Ways to Encourage Older Adults to Become Patrons, **Appendix E**, Examples of Businesses/Organizations that Provide Goods and Services.

What can the Age-Friendly Recognition Program offer?

The no-cost option of:

1. Having a competitive advantage by positioning your business to target the growing older population.
2. Understanding how to improve your business' age-friendliness.
3. Improving customer service through a greater awareness amongst staff.
4. Performing a self-assessment of your business/organization to identify areas of improvement and to obtain an Age-Friendly Certificate.
5. Obtaining an "Age-Friendly Simcoe County" decal that allows you to showcase your commitment and receiving a Certificate of Recognition.
6. Free promotion through the County of Simcoe's Age-Friendly website, and the local community business and other organizations and networks, for instance, Chambers of Commerce, Associations, Clubs, municipalities, etc.

Age-Friendly business is good business

An Age-Friendly business/organization is people-friendly—appealing to all ages and abilities. As an integral part of the community, businesses/organizations can be key to making a community more livable and engaged. Businesses/organizations should strive to meet the needs of all individuals of all ages and abilities.

Every community, neighborhood and business/organization is different. We all retain different range of abilities as we age. Some residents may be active and fit; others may have disabilities; some may have chronic health conditions; some may be living with reduced mobility, reduced vision or other conditions that come with aging. It is important to determine what criteria would work best for your business/organization.

- Customer friendly
- Gives you a competitive edge
- Serving a fast-growing market
- Broadening your customer base
- Friendly to all generations, families, and caregivers
- Enhancing your business/organization reputation and goodwill

What Elements make a business /organization Age-Friendly?

Depending on the nature of your business/organization, the specifics will probably be unique. However, there are some elements of age-friendliness that are common for almost all:

- Respect
- Visibility
- Comfort
- Accessibility
- Safety
- Service

Consider how your business/organization fosters these elements. **Appendix F**, Age-Friendly Self-assessment Checklist, will help you self-assess if these elements have been incorporated into the day-to-day operation of your business/organization.

Making Your Business/Organization More Age-Friendly

A helpful first step is to conduct an Age-Friendly assessment of your environment which will help you gain a better understanding of how your business/organization is currently experienced by people of older age.

Step 1: Understanding the Assessment Process

Review **Appendix F**, Age-Friendly Self-assessment Checklist, to inform yourselves and to help you get started in making your business/organization more safe, comfortable and attractive to older customers and to others who would benefit.

Where feasible, the Self-assessment Checklist should be completed by a minimum of two (2) people in your organization. Some elements may be more applicable than others, depending on the nature of your business/organization.

Step 3: Self-Assessment Results and Goal Setting

Reflect on the areas where you scored your organization:

- Are there certain areas you rated as “NO” that you know are feasible? Utilize **Appendix G**, Goal Setting Work Plan. This form allows you to list planned Age-Friendly improvement goals.
- Refer to **Appendix H**, Resources, if you would like more specifications on accessibility requirements, free online training modules, or to understand people living with dementia.
- If you have additional questions, you can send an email: agefriendly@simcoe.ca

Step 2: Performing your Self-assessment

Now that you have reviewed and understand the process, you are ready to begin your business/organization assessment. Assess each aspect within the **Self-assessment Checklist** that applies to your organization and give it a rating according to the following scoring system:

Yes	No	N/A
2	0	N/A

This rating system can help you flag areas of excellence and other areas where improvement may be needed.

Step 4: Apply for Recognition

Celebrate your Success! Tell us how your business/organization is currently Age-Friendly by completing and submitting to us **Appendix I**, Application for Recognition, **Appendix F**, Age-Friendly Self-assessment Checklist, and **Appendix G**, Goal Setting Work Plan.

Some tips for consideration

- Place yourself in the shoes of someone else, an older person, someone with reduced mobility, sight or hearing challenges, or a person with dementia. Look around – try to examine your business/organization from their perspective.
- With the **Self-assessment Checklist** in hand, systematically assess the various aspects of your business/organization. Some will be tangible such as physical structure, others will be intangible such as the conduct of staff and the service they provide to customers.
- Gain first-hand opinions from customers and staff who can also provide insights.
- You might recognize needs for improvement in minor areas. Don't discount these. Actions to become Age-Friendly don't necessarily need to be large and expensive. Many minor actions can add up to a big impact.
- Examine your advertising, information materials and website. Is your information easy to understand and read?
- Get additional opinions. You might consider asking an older adult to help you with the assessment to gain an alternative perspective. You could ask this person to be a “secret shopper” with the goal of assessing the age-friendliness of the customer experience.

Thank You

We would like to acknowledge those businesses/organizations that are exercising Age-Friendly best practices and encourage others to become more Age-Friendly.

How to Get Involved

If you are interested in getting involved in developing Age-Friendly community initiatives, you can join the Simcoe County Age-Friendly Advisory Committee by emailing your request to: agefriendly@simcoe.ca

Acknowledgments

Many cities in Canada and around the world have developed their own Age-Friendly business/organizations programs and resources. This Age-Friendly Guide and Recognition Program has been adapted from a review of the work already done by B.C., Alberta, Ontario (Ottawa, London, Wawa) U.S.A. (New York, Portland) and more.

The County of Simcoe wishes to acknowledge and thank the following organizations who collaborated by participating on the Age-Friendly Guide and Recognition Program sub-committee: Independent Living Services of Simcoe County and Area, Alzheimer Society of Simcoe County, Wasaga Beach Age-Friendly Community Advisory Committee, City of Barrie Age-Friendly and Accessibility, Simcoe County Accessibility Advisory Committee and County of Simcoe Economic Development Office.

Background on the Age-Friendly Community Initiative

The County of Simcoe received funding from the Government of Ontario as part of its Age-Friendly Community Planning Grant Program. The funding served to establish a baseline assessment of Simcoe County's age-friendliness and to determine the recommendations for action according to scope of community responsibility. A variety of community engagement processes were used to collect feedback from residents 60 years of age and older, caregivers, and service providers of older adults to produce the Building an Age-Friendly Simcoe County - 2016 Community Needs Assessment and the County's Positive Aging Strategy. Both documents can be found at <http://www.simcoe.ca/Age-Friendly>.

**Data for Christian Island 30A was not available.

Appendix B:

Simcoe County Senior Population Hot Spots

Appendix C:

Examples of Age-Friendly businesses/organizations

A physician's office has

- A person answering the telephone
- Staff are trained in accessible customer services including servicing customers with dementia
- Sturdy, various height seating, with and without armrests, is available in waiting areas and line-up areas
- Doors and/or door frames contrast with the colour(s) of the walls.

A non-profit organization has

- Gradual slope to automatic doors, large foyer
- Receptionist to greet clients, TTY number available
- Large room for private discussions
- Staff are trained in serving seniors and people with disabilities
- Website is accessible, building signage is clear and high contrast

A pharmacy has

- Clear aisles and easy-to-read signage
- Magnifying glasses to help people read fine print on product labels
- Prescription staff who move to a private area if discussion is required
- Easily accessible washroom
- Staff are trained to be sensitive to customers with varying circumstances.

A bank has

- Visible customer service areas and some counters at scooter height
- Staff trained to identify signs of possible financial abuse, or people needing additional care
- An area where people can sit to conduct business.

A restaurant has

- A drop-off area at the door, space to move easily between tables for walkers, wheelchairs or scooters
- Tables located away from chilly air vents and chairs are steady
- Menus with low-fat, heart-smart, low-sodium choices, and smaller portions at lower prices
- Menus (and bills) with easy-to-read print.

Appendix D:

Ways to Encourage Older Adults to Become Patrons

- Be mindful of unsecured rugs and clutter in walkways to prevent falls
- Place products on shelves that are accessible or provide help to reach items
- Reduce excessively loud music
- Keep sidewalks free of dirt, leaves, clutter and other obstacles
- Ensure staff are aware of the needs and challenges faced by older customers
- Offer extra customer service (e.g., a drink of water, delivery, etc.)
- Sell products and /or services that are tailored to older adults
- Have a place where customers can sit and rest
- Allow customers to use restrooms
- Provide the ability to contact your business/organization by phone
- Provide a person at the end of the telephone
- Participate in events to let people know you are an invested in the community
- Provide discounts/promotions tailored to older adults
- Choose a specific day of the week dedicated to senior discounts

Appendix E:

Examples of businesses/organizations that provide goods and services

Here are some examples of businesses that provide goods or services to the public:

- Stores, restaurants, hotels, bars and hair salons
- Garages, service stations, home renovators, architects and builders
- Hospitals and health services
- Schools, universities and colleges
- Organizations that operate public places and amenities, such as recreation centres, public washrooms, malls and parks
- Municipal and provincial governments and the programs and facilities that they run, including social assistance services, public meetings, public transit, libraries, and employment centres
- Provincially regulated utilities
- Travel agencies, tour operators, amusement parks, farmers' markets and travelling fairs
- Police, ambulance, fire and court services
- Manufacturers and wholesalers
- Professionals, such as doctors, dentists, chiropractors, physiotherapists, lawyers, and accountants, whether services are offered to individuals or to businesses
- Consultants, programmers, engineers and event planners
- Charities and non-profit organizations
- Theatres, stadiums and conference centres
- Places of worship, such as churches, synagogues, mosques and temples

Appendix F:

Age-Friendly Self-assessment Checklist

Yes	No	N/A
2	0	N/A

INSIDE - Customer Service and Respect		#
1	Customer Service Desk is clearly visible to ask for help	
2	A staff person is available to answer the telephone	
3	Staff are clearly identifiable to customers; e.g., wearing name tags or staff uniforms	
4	Errors and concerns are addressed promptly and courteously	
5	Staff are trained in accessible customer services standards including servicing customers with dementia (See More Information on Dementia under Appendix G - Resources)	
6	Staff are trained to understand the needs of older adults	
7	Staff are trained to speak clearly, at appropriate speed, ensuring the customer is included in the conversation regardless of their ability	
8	Staff are trained to be sensitive to customers with varying circumstances, to avoid stereotyping or condescending behaviours (e.g., speaking too loudly, showing impatience or speaking too familiarly as in calling someone “dear”)	
9	Staff are trained to manage situations in ways that preserve a person's dignity (for example, incidents such as falls or outbursts)	
10	Staff are acknowledged for being respectful	
11	A process is in place to obtain medical assistance for emergency situations	
12	Elder Abuse training is provided to Staff	
13	Consumer research includes older people	
14	Seniors and people with disabilities are portrayed positively in promotional materials and advertisements	
15	Products and services are designed for smaller households, small incomes and smaller appetites	
16	Print and spoken communication uses simple, familiar words in short, straight forward sentences	
17	Services are available in other languages	
18	Supports local senior organizations, groups or events	
19	Hires and supports employees of all ages and capabilities	
20	Encourages volunteer opportunities for older adults	
21	Is accessible by public transportation	
22	Has a readily available feedback process from customers	
23	Older adults receive discounts or special offers	
24	Allows people to use their own personal assistive devices	
25	Is aware of Accessibility for Ontarians With Disabilities Act

4. County of Simcoe has several resources in addition to the Age-Friendly Business Guide such as a community action plan and framework called the Positive Aging Strategy: Older Adults Strengthening our Communities, visit: <https://www.simcoe.ca/dpt/ltc/Age-Friendly>
5. Free online Staff Training Modules from AccessForward.ca
6. Readability shouldn’t be an afterthought when producing materials. It should be the first step in making your merchandising, service, location or information accessible to everyone, no matter how much vision they have. Keep the following Clear Print guidelines in mind as you design your products, and you’ll reach a wider audience: [CNIB Clear print Accessibility Guidelines](#)

**“It is often said that, “a dementia-friendly community is Age-Friendly,
but an Age-Friendly community is not necessarily dementia-friendly.”
In fact, neither one wholly encompasses the other.”**

Turner, N and Morken L

Better Together: A comparative Analysis of Age-Friendly and Dementia Friendly Communities

What is a Dementia-Friendly Community?

Dementia is a term that describes a set of symptoms that includes memory loss and difficulties with comprehension, language, problem-solving and judgement. Dementia can be caused by diseases that damage the brain and progress in severity over time. Due to its many causes, dementia affects everyone differently. **A person with dementia may:**

Have problems with memory – for example forgetting their address, PIN number or what they stopped into a store to buy.

Have language problems and difficulties following a conversation or choosing the right word – for example, a person may know what they want to eat in a restaurant but have trouble remembering the word to order it.

Lose track of time or date and may become confused about where they are.

Have difficulties with making decisions, solving problems or carrying out a sequence of a task, for example completing a store transaction.

More people are diagnosed with dementia every year and choose to live at home in their community throughout their life. They may continue to participate in social activities, do their banking, shopping or manage their prescriptions. People living with dementia, and their care partners, should feel supported by their community members whether they are at post offices, restaurants, retail outlets, etc., using transportation or enjoying recreational past times out in the community.
