SUMMARY COMMENT
Are there particular efforts and/or issues that you would like to highlight for this reporting period related to your community's work to achieve the Reaching Home minimum requirements? In particular, please describe your community's efforts to set-up or improve the Coordinated Access governance structure, including processes to ensure that policies and protocols, as approved by the governance group(s), are being implemented across the system as intended to achieve desired results.
We contracted with OrgCode to develop a Cooridnated Access (CA) implementation guide for Simcoe County by conducting a review of our work to-date, and to define content for the policies, procedures that outline ongoing operations of the CA. These activities included: • surveying service providers to define their top three goals, to be reflected in prioritization categories and data tracking; • conducting interviews and focus groups to ensure the process is representative and inclusive of Indigenous community, people with lived experience, people who identify as LGBTQ2S+; • naming access points and the workflow for each; • outlining an appropriate governance structure with defined roles; • finalizing the process for matching a household to an open case load spot or vacancy. Our Built For Zero Simcoe Team agreed to implement the guide verbatim, and follow OrgCode's recommendations that no changes be made before December 2022.
