

Date: APRIL 29 - 2017

Mr. John Daly, County Clerk
County of Simcoe Administration Centre
1110 Highway 26
Midhurst, ON
L9N 1X6

Dear Mr. Daly,

Re: Part Lot 2, Concession 1
2976 Horseshoe Valley Road West
Township of Springwater
Environmental Resource Recovery Centre
County File: SC-OPA-1602

I am in receipt of the notice of a Statutory Public Meeting for the above noted County Official Plan Amendment.

I am opposed to the proposed amendment for the following reasons:

1. The County's expressed desire to locate the facility, if possible, on lands already owned by the County resulted in the inclusion of County-owned forests in the candidate waste disposal facility sites;
2. Given that the vast majority of County landholdings are County Forests, this resulted in 50% of the candidate sites for a waste disposal facility being within woodlands;
3. If you consider just the County-owned sites that were under consideration, 82% of the sites were woodland areas. This is an overwhelming proportion of candidate sites within areas that most residents of the County would consider to be protected from development;
4. County Forests should not be considered as a viable option for the construction of infrastructure and should have been excluded from the site selection process based on both natural heritage as well as social and cultural impacts to the broader community; and,
5. The decision-making matrix that was used during the Part 1 – 3 process was not consistent with the requirements of the Provincial Policy Statement. In addition, the Environmental Impact Study has not demonstrated that there will be no negative impact to areas of provincial interest, such as woodlands, wetlands and wildlife habitat, as required by the *Planning Act*.

Based on the above, I would ask that the County not approve the Official Plan Amendment.

I would like to be notified of the adoption or refusal of the proposed Official Plan Amendment.

Yours truly,

Name: Juane Naccarato
Address: 166 Lillian Cres

Good morning.

Please find attached a letter in regards to the opposed site on Horseshoe Valley Rd Springwater. I am opposed as I live on Gill Rd. There are two farms affected . There is much wildlife and forestry that will be destroyed. The effects on the environment will be totally devastating. I have lived here over 10 yrs. I don't see how a facility that like will not affect our water. The water out here is precious. It is clear. We don't need another Walkerton episode.
Why would we build by farmland that is actually being farmed. As well close to communities.

I am concerned regarding the traffic as well as noise. Many people ride their bicycles on the Hwy, the snowmobiles and dirt bikes, and people walking will be affected as well. The location is on a hill so I can see many accidents entering in and out of the facility. It will affect our resources of fire and police and other emergency facilities. In the winter, the roads tend to get icy, and dangerous as well.

Margaret and Dan Oschefski
1402 Gill Rd

4. County Forests should not be considered as a viable option for the construction of infrastructure and should have been excluded from the site selection process based on both natural heritage as well as social and cultural impacts to the broader community; and,
5. The decision-making matrix that was used during the Part 1 – 3 process was not consistent with the requirements of the Provincial Policy Statement. In addition, the Environmental Impact Study has not demonstrated that there will be no negative impact to areas of provincial interest, such as woodlands, wetlands and wildlife habitat, as required by the *Planning Act*.

Based on the above, I would ask that the County not approve the Official Plan Amendment.

I would like to be notified of the adoption or refusal of the proposed Official Plan Amendment.

Yours truly,

Dear Mr. Daly,

Re: Part Lot 2, Concession 1
2976 Horseshoe Valley Road West
Township of Springwater
Environmental Resource Recovery Centre
County File: SC-OPA-1602

I am in receipt of the notice of a Statutory Public Meeting for the above noted County Official Plan Amendment.

I am opposed to the proposed amendment for the following reasons:

1. The County's expressed desire to locate the facility, if possible, on lands already owned by the County resulted in the inclusion of County-owned forests in the candidate waste disposal facility sites;
2. Given that the vast majority of County landholdings are County Forests, this resulted in 50% of the candidate sites for a waste disposal facility being within woodlands;
3. If you consider just the County-owned sites that were under consideration, 82% of the sites were woodland areas. This is an overwhelming proportion of candidate sites within areas that most residents of the County would consider to be protected from development;
4. County Forests should not be considered as a viable option for the construction of infrastructure and should have been excluded from the site selection process based on both natural heritage as well as social and cultural impacts to the broader community; and,
5. The decision-making matrix that was used during the Part 1 – 3 process was not consistent with the requirements of the Provincial Policy Statement. In addition, the Environmental Impact Study has not demonstrated that there will be no negative impact to areas of provincial interest, such as woodlands, wetlands and wildlife habitat, as required by the *Planning Act*.

Based on the above, I would ask that the County not approve the Official Plan Amendment.

I would like to be notified of the adoption or refusal of the proposed Official Plan Amendment.

Dear Mr. Daly,

Re: Part Lot 2, Concession 1
2976 Horseshoe Valley Road West
Township of Springwater
Environmental Resource Recovery Centre
County File: SC-OPA-1602

I am in receipt of the notice of a Statutory Public Meeting for the above noted County Official Plan Amendment.

I am opposed to the proposed amendment for the following reasons:

Simcoe County Forests which were set apart as protected land should not be a viable option for the construction of infrastructure and should be excluded from the options.

Although I can respect that the needs of our community are changing and the council needs to be resourceful in meeting these needs. I believe there are better ways to accomplish this than to destroy our wildlife and forests.

There doesn't seem to be great consideration towards the many residents who also provide the buffer of protection for these lands. By turning this forest land into a commercial space it would surely have a negative impact on the lives of countless human families.

I am disappointed in the lack of adherence and consistency to the decision making process required by the Provincial Policy Statement during the process of Part 1-3.

The Environmental Studies that have been done have not, in my estimation, demonstrated accurately the negative impact on the forest land, the animals and the people who would be directly affected. This due to the desire to push through the county's plan.

Based on the above, I would ask that the County not approve the Official Plan Amendment. I would like to be notified of the adoption or refusal of the proposed Official Plan Amendment.

3. If you consider just the County-owned sites that were under consideration, 82% of the sites were woodland areas. This is an overwhelming proportion of candidate sites within areas that most residents of the County would consider to be protected from development;
4. County Forests should not be considered as a viable option for the construction of infrastructure and should have been excluded from the site selection process based on both natural heritage as well as social and cultural impacts to the broader community; and,
5. The decision-making matrix that was used during the Part 1 - 3 process was not consistent with the requirements of the Provincial Policy Statement. In addition, the Environmental Impact Study has not demonstrated that there will be no negative impact to areas of provincial interest, such as woodlands, wetlands and wildlife habitat, as required by the *Planning Act*.

Based on the above, I would ask that the County not approve the Official Plan Amendment.

I would like to be notified of the adoption or refusal of the proposed Official Plan Amendment.

Yours truly,

Dear Mr. Daly,

Re: Part Lot 2, Concession 1
2976 Horseshoe Valley Road West
Township of Springwater
Environmental Resource Recovery Centre
County File: SC-OPA-1602

I am in receipt of the notice of a Statutory Public Meeting for the above noted County Official Plan Amendment.

I am opposed to the proposed amendment for the following reasons:

1. The County's expressed desire to locate the facility, if possible, on lands already owned by the County resulted in the inclusion of County-owned forests in the candidate waste disposal facility sites;
2. Given that the vast majority of County landholdings are County Forests, this resulted in 50% of the candidate sites for a waste disposal facility being within woodlands;
3. If you consider just the County-owned sites that were under consideration, 82% of the sites were woodland areas. This is an overwhelming proportion of candidate sites within areas that most residents of the County would consider to be protected from development;
4. County Forests should not be considered as a viable option for the construction of infrastructure and should have been excluded from the site selection process based on both natural heritage as well as social and cultural impacts to the broader community; and,
5. The decision-making matrix that was used during the Part 1 – 3 process was not consistent with the requirements of the Provincial Policy Statement. In addition, the Environmental Impact Study has not demonstrated that there will be no negative impact to areas of provincial interest, such as woodlands, wetlands and wildlife habitat, as required by the *Planning Act*.

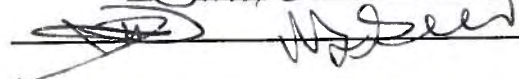

Based on the above, I would ask that the County not approve the Official Plan Amendment.

I would like to be notified of the adoption or refusal of the proposed Official Plan Amendment.

Environmental Resource Recovery Centre
County File: SC-OPA-1602**

I am writing in response to notice of a Statutory Public Meeting for the above noted County Official Plan Amendment.

All initiatives to recycle domestic solid waste are to be commended. However I am opposed to the proposed County Official Plan Amendment for the following reasons:

1. The County's expressed desire to locate the facility, if possible, on lands already owned by the County resulted in the inclusion of County-owned forests in the candidate waste disposal facility sites;
2. Given that the vast majority of County landholdings are County Forests, this resulted in 50% of the candidate sites for a waste disposal facility being within woodlands;
3. If you consider just the County-owned sites that were under consideration, 82% of the sites were woodland areas. This is an overwhelming proportion of candidate sites within areas that most residents of the County would consider to be protected from development;
4. County Forests should not be considered as a viable option for the construction of infrastructure and should have been excluded from the site selection process based on both natural heritage as well as social and cultural impacts to the broader community; and,
5. The decision-making matrix that was used during the Part 1 – 3 process was not consistent with the requirements of the Provincial Policy Statement. In addition, the Environmental Impact Study has not demonstrated that there will be no negative impact to areas of provincial interest, such as woodlands, wetlands and wildlife habitat, as required by the *Planning Act*.

Based on the above, I would ask that the County not approve the Official Plan Amendment for this inappropriate site.

Past government fought and acquired these properties for use by the people. As a long standing member of the ofah. And a tax payer I'm am insulted that this project would even be considered. Has no one looked at the records to see what poor management decisions made in the past. Poor land use practices can be devastating. Please consider land that has already been properly designated. Not in my forest.

County File: SC-OPA-1602**

I am in receipt of the notice of a Statutory Public Meeting for the above noted County Official Plan Amendment.

I am opposed to the proposed amendment for the following reasons:

1. The County's expressed desire to locate the facility, if possible, on lands already owned by the County resulted in the inclusion of County-owned forests in the candidate waste disposal facility sites;
2. Given that the vast majority of County landholdings are County Forests, this resulted in 50% of the candidate sites for a waste disposal facility being within woodlands;
3. If you consider just the County-owned sites that were under consideration, 82% of the sites were woodland areas. This is an overwhelming proportion of candidate sites within areas that most residents of the County would consider to be protected from development;
4. County Forests should not be considered as a viable option for the construction of infrastructure and should have been excluded from the site selection process based on both natural heritage as well as social and cultural impacts to the broader community; and,
5. The decision-making matrix that was used during the Part 1 – 3 process was not consistent with the requirements of the Provincial Policy Statement. In addition, the Environmental Impact Study has not demonstrated that there will be no negative impact to areas of provincial interest, such as woodlands, wetlands and wildlife habitat, as required by the *Planning Act*.
6. The County forest is designated "Greenland" in the County Official Plan and should be protected. There is no justification for putting an "Industrial Use" on lands designated Greenland when there are industrial sites available.

Based on the above, I would ask that the County not approve the Official Plan Amendment.

I would like to be notified of the adoption or refusal of the proposed Official Plan Amendment.

Yours truly,

A handwritten signature in cursive script that reads "Lynda Van Casteren". The signature is written in black ink and is positioned above the printed name.

Mr. John Daly, County Clerk
County of Simcoe Administration Centre
1110 Highway 26
Midhurst, ON
L9N 1X6

Dear Mr. Daly,

This letter is in reference to the ERRC project that the County of Simcoe is planning for the Freele Tract at 2976 Horseshoe Valley Road in Springwater Township.

We are a homeowner whose home is located adjacent and east of Site C-136, otherwise known as the Freele Tract.

As the County continues with its plans we must prepare for the safety of our home which is not just a physical house. It was built by ourselves in 2001 on family land we purchased. I used due diligence and spoke with the township and county staff to determine what plans were in consideration for this area. Looking at the County of Simcoe Forest Management Plan and track record for acquiring forest for what I believed was going to be recreation and conservation, my husband and I paid significant cost to build our home deep in the interior of the 50 acres of forest on our property. Our property lines and home are contiguous with the Friele Forest. The Dunlop 100 acre forest forms our northern property line. We have one road into our house approximately 500 m long through forest.

In case of emergency, this is the only way for our families to reach our homes and it's the only way for our family to leave the area from our home. Should this road become impassable due to fire our family, horses, dogs and cats will become trapped in this dense forested area.

During a tour of the Guelph facility for near neighbours arranged through County staff, it was confirmed that fires are a common occurrence. In 2014, a facility smaller than the ERRC proposed for the Freele forest, located in Springwater Township, burned to the ground after a 16-hour battle that required the assistance of 75 fire fighters from neighbouring communities. This facility had safety precautions in place, including anti-fire devices, and as we understand, so will the ERRC. You should also note that not only was this facility located on an industrial site which was better suited to contain and control emergency situations such as this fire, but so too did it offer easier access to the facility when emergencies arose.

To date, we have been unable to locate any type of **Emergency Response Plan** that addresses evacuation routes for residents. Nor have we been able to locate anywhere in the County's plans any intentions to upgrade roads for better access to the neighbouring properties at risk.

Should a worst-case scenario occur with no proper emergency evacuation routes in place, the fate of our family, livestock and home will be needlessly placed at *great* risk.

We implore County Council to reconsider this project for a site that is properly suited and set up for industrial use. We ask that Council NOT approve this Official Plan Amendment.

Should you have any questions for our families concerning the above, please do not hesitate to contact us.

Sincerely,

Mary and Robert Wagner

Dear Mr. Daly,

Re: Part Lot 2, Concession 1 2976 Horseshoe Valley Road West Township of
Springwater Environmental Resource Recovery Centre County File: SC-OPA-1602

This letter is regarding the Statutory Public Meeting for the above noted County Official Plan Amendment.

I am opposed to the proposed amendment for the following reasons:

1. The County's expressed desire to locate the facility, if possible, on lands already owned by the County resulted in the inclusion of County-owned forests in the candidate waste disposal facility sites;
2. Given that the vast majority of County landholdings are County Forests, this resulted in 50% of the candidate sites for a waste disposal facility being within woodlands;
3. If you consider just the County-owned sites that were under consideration, 82% of the sites were woodland areas. This is an overwhelming proportion of candidate sites within areas that most residents of the County would consider to be protected from development;
4. County Forests should not be considered as a viable option for the construction of infrastructure and should have been excluded from the site selection process based on both natural heritage as well as social and cultural impacts to the broader community; and,
5. The decision-making matrix that was used during the Part 1 – 3 process was not consistent with the requirements of the Provincial Policy Statement. In addition, the Environmental Impact Study has not demonstrated that there will be no negative impact to areas of provincial interest, such as woodlands, wetlands and wildlife habitat, as required by the Planning Act.

Most importantly, I believe that the County forest should remain as forest land, and not be re-assigned to other purposes.

Based on the above, I ask that the County not approve the Official Plan Amendment. Would you please notify me of the adoption or refusal of the proposed Official Plan Amendment.

Yours truly,

2. Given that the vast majority of County landholdings are County Forests, this resulted in 50% of the candidate sites for a waste disposal facility being within woodlands;
3. If you consider just the County-owned sites that were under consideration, 82% of the sites were woodland areas. This is an overwhelming proportion of candidate sites within areas that most residents of the County would consider to be protected from development;
4. County Forests should not be considered as a viable option for the construction of infrastructure and should have been excluded from the site selection process based on both natural heritage as well as social and cultural impacts to the broader community; and,
5. The decision-making matrix that was used during the Part 1 – 3 process was not consistent with the requirements of the Provincial Policy Statement. In addition, the Environmental Impact Study has not demonstrated that there will be no negative impact to areas of provincial interest, such as woodlands, wetlands and wildlife habitat, as required by the *Planning Act*.

Based on the above, I would ask that the County not approve the Official Plan Amendment. I would like to be notified of the adoption or refusal of the proposed Official Plan Amendment.

Yours truly,

Name: Susan Wilander

Dear Mr. Daly,

**Re: Part Lot 2, Concession 1
2976 Horseshoe Valley Road West
Township of Springwater
Environmental Resource Recovery Centre
County File: SC-OPA-1602**

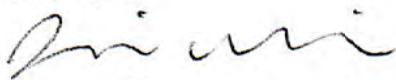

I am in receipt of the notice of a Statutory Public Meeting for the above noted County Official Plan Amendment.

I am opposed to the proposed amendment for the following reasons:

1. The County's expressed desire to locate the facility, if possible, on lands already owned by the County resulted in the inclusion of County-owned forests in the candidate waste disposal facility sites;
2. Given that the vast majority of County landholdings are County Forests, this resulted in 50% of the candidate sites for a waste disposal facility being within woodlands;
3. If you consider just the County-owned sites that were under consideration, 82% of the sites were woodland areas. This is an overwhelming proportion of candidate sites within areas that most residents of the County would consider to be protected from development;
4. County Forests should not be considered as a viable option for the construction of infrastructure and should have been excluded from the site selection process based on both natural heritage as well as social and cultural impacts to the broader community; and,
5. The decision-making matrix that was used during the Part 1 – 3 process was not consistent with the requirements of the Provincial Policy Statement. In addition, the Environmental Impact Study has not demonstrated that there will be no negative impact to areas of provincial interest, such as woodlands, wetlands and wildlife habitat, as required by the *Planning Act*.

Based on the above, I would ask that the County not approve the Official Plan Amendment. I would like to be notified of the adoption or refusal of the proposed Official Plan Amendment.

Yours truly,
