

ELECTRIC VEHICLE FAST-CHARGING STATIONS

Who can charge?

Any full electric vehicle with a Level 3 fast-charging port can use the stations (e.g. Nissan Leaf, Chevrolet Bolt, Hyundai Ioniq). Tesla drivers can charge with a Tesla adapter.

Plug-in hybrid electric vehicles with Level 2 ports (e.g. Chevrolet Volt) **cannot** use the stations.

What ports do the stations have?

CHADEMO
Nissan
Mitsubishi

SAE COMBO CCS
Chevrolet, Hyundai
Volkswagen, Ford

What is the cost?

Charging is \$0.25 per minute*

*2018-19 rates.

Fees subject to change as hydro rates increase.

How do I pay to start a charge?

1. Swipe your credit card at the station or call Greenlots at 1-855-900-7584 to process.
2. Use the Greenlots mobile app. The app can be downloaded in advance and pre-loaded with your payment information.
3. Tap your Greenlots RFID card. Order a Greenlots RFID card via email: support@greenlots.com

How long will it take?

The average car takes 20 to 30 minutes to charge from 0 to 80% battery life.

Can the station be used in rain & snow?

Yes, the station is safe to use in all weather conditions, but charging may be slower in cold or hot conditions.

Where can I find the status & location of

Download the **PlugShare** app for up-to-date info.

What if I need assistance?

The Greenlots customer care team is available to assist drivers 24/7 and can be reached at 1-855-900-7584.
