

Enjoy the Moment...

Have Fun, Connect and Wonder, Pause and Wait

Get Face to Face with Me

I like it when you look at me...
it makes it easy for me
to look back at you

- Sit with me on the floor
- Lie on your stomach while we play
- Put me on your lap facing you

Being face to face is important because:

- We can share the moment and have fun
- You can see what I'm interested in and what I'm trying to tell you
