

Simcoe County Data Consortium

UPDATE

Community Data Program | Summer 2017

What's New...

There's plenty of new data in the communitydata.ca catalogue:

- **Broad Age Groups (5) with Average and Median Age, Census 2016**
Broad age groups (total, 0-14 years, 15-64 years, 65+ years, 85+ years) with average and median age, for all sexes (PT, CD, CSD)
- **CMHC Comprehensive New Home Construction tables**
- **CMHC Comprehensive Rental Market tables**
- **Police Resources in Canada, 2016**
The Police Administration Survey collects data on police personnel and expenditures from each municipal, provincial and federal police services in Canada.
- **Enhanced Postal Code Conversion File**
January 2017. Provided by request.
- **Taxfiler: After-Tax Low Income, 2014**
The custom order CSD file contains 5 tables:
 1. Couple families and low income couple families
 2. Male lone parent families and low income male lone parent families
 3. Female lone parent families and low income female lone parent families
 4. Non family persons and low income non family persons
 5. Total of couple families, lone-parent families, and non family persons
- **Annual Population Estimates by Age and Sex 2001-2016**

2016 Census

On May 3, 2017, Statistics Canada released its second set of data from the 2016 Census, on age and sex, type of dwelling and the Census of Agriculture.

The greying of Canada's population is accelerating, as new census numbers show seniors now outnumber children for the first time in the survey's history.

Comparison Age Pyramid

Compare the age and sex structure of two different levels of geography; Canada, provinces, territories, census metropolitan areas, census agglomerations through the pull-down menus. Data are available from the 2016 and 2011 censuses.

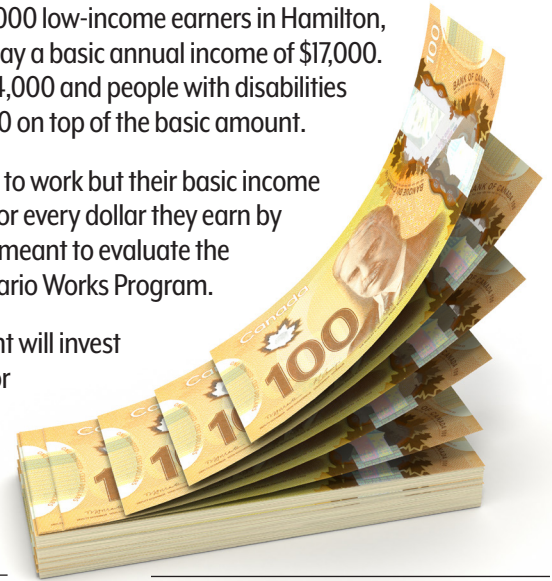

Ontario to launch guaranteed minimum income pilot program in Hamilton, Lindsay, and Thunder Bay

Premier Kathleen Wynne announced that the Ontario Basic Income Pilot (OBIP) will give up to 4,000 low-income earners in Hamilton, Lindsay, and Thunder Bay a basic annual income of \$17,000. Couples would earn \$24,000 and people with disabilities would earn up to \$6,000 on top of the basic amount.

Participants are eligible to work but their basic income will decrease by \$0.50 for every dollar they earn by working. This project is meant to evaluate the replacement of the Ontario Works Program.

The Ontario government will invest \$50 million each year for the three-year pilot program.

Transform the Sector

Building a Data-Driven Social Sector

This series captures all the excitement and awesomeness of [Transform the Sector 2017](#). It features a conference recap video as well as videos on data capacity, open data and funders, administrative data, and data ethics. The videos are short summaries of the key points discussed and are an easy way to get familiar with each topic.

2017 Community Data Annual Meeting

The CDP Annual General Meeting took place May 25-26.
