IMPORTANT NOTICE: SRRP Collingwood site

Thank you for your continued support and interest in the modular temporary Supportive Rapid Rehousing Program, located here at The Common Roof property in Collingwood.

About the Program

The program is being run by the County of Simcoe. The modular facility located here on The Common Roof's property will soon be home to seniors aged 55+ who have been experiencing homelessness through the County's Supportive Rapid Rehousing Program (SRRP). **The SRRP is *not* a shelter**; it is a temporary home for individuals as they prepare for independent, and permanent, living situations. The County has contracted CONTACT Community Services to provide comprehensive, 24/7 on-site services, staffed with trained professionals. The modular structure can house between 10 and 15 people at a time.

About the Supportive Rapid Re-Housing Program

The initiative is called the Supportive Rapid Rehousing Program (SRRP) and aims to provide services, housing and support to individuals in need, with the goal of securing permanent, affordable housing for them quickly – typically within 120-180 days. These individuals have been identified as situationally homeless (i.e., due to a recent life event, rather than chronically homeless). This program provides in-house support to find and integrate into permanent housing successfully, while ensuring that they will have the best chance of success in their housing journey. Similar programs through the County of Simcoe have resulted in many successful outcomes, with no known impact on the surrounding neighbourhood.

The County has secured a contract with CONTACT Community Services, with support from the South Georgian Bay Community Health Clinic, to provide comprehensive, 24/7 on-site services, staffed with trained professionals.
